

# Material: ASTM A 494 N7M

## Standard Specification for Castings, Nickel and Nickel Alloy

**Group:** Non-Ferrous Nickel Alloys

**Sub Group:** ASTM A 494 N7M Castings, Nickel and Nickel Alloy

**Application:** Intended for Valve, Pump, General Engineering, Automotive and other Industries

**Grade Belongs to the Industry:** Casting

| Chemical Composition |      |                 | Heat Treatment                       |          |
|----------------------|------|-----------------|--------------------------------------|----------|
| Carbon               | C %  | 0.070 max.      | As-Cast or Annealing or Age Hardning |          |
| Silicon              | Si % | 1.000 max.      |                                      |          |
| Manganese            | Mn % | 1.000 max.      |                                      |          |
| Phosphorus           | P %  | 0.030 max.      |                                      |          |
| Sulphur              | S %  | 0.020 max.      |                                      |          |
| Chromium             | Cr % | 1.000 max.      |                                      |          |
| Iron                 | Fe % | 3.000 max.      |                                      |          |
| Molybdenum           | Mo % | 30.000 - 33.000 |                                      |          |
| Nickel               | Ni % | Balance         | Mechanical Properties                |          |
| -                    | -    | -               | Tensile Strength in Mpa              | 525 min. |
| -                    | -    | -               | Yield Strength in Mpa                | 275 min. |
| -                    | -    | -               | Elongation in %                      | 20 min.  |
| -                    | -    | -               | Reduction of Area in %               | -        |
| -                    | -    | -               | Hardness in BHN                      | -        |
| -                    | -    | -               | Impact in Joule                      | -        |

| Cross Reference Table |          |         |                              |
|-----------------------|----------|---------|------------------------------|
| Material              | Standard | Country | Grade Belong to the Industry |
